

Holiday Card Conundrum

Kala, Quincy, Susan, and Thomas are working on sending out their holiday greeting cards. They've each gotten a different number mailed so far. Use the clues to figure out which person has sent which number of cards.

1. Susan has sent fewer cards than Thomas.
2. Quincy has sent an odd number of cards.
3. If Kala sends out two more cards, she'll be even with one of the others.
4. Susan told the person who's sent 10 that she likes the new holiday stamps.

| | 5 | 9 | 10 | 11 |
|--------|---|---|----|----|
| Kala | | | | |
| Quincy | | | | |
| Susan | | | | |
| Thomas | | | | |

Use the grid, if you would like, to eliminate possibilities. Put an "x" in a box if you know a name doesn't go with a number. Put an "o" if you know it does.

Solution to Holiday Card Conundrum

Kala sent 9.

Quincy sent 11.

Susan sent 5.

Thomas sent 10.
