

Pizza Puzzle Logic

Maria, Juan, Stephen, Kari, and Paul each brought their favorite pizza topping to put on the pizzas they're making in class. Use the clues to decide which topping is each person's favorite: bacon, mushrooms, pepperoni, olives, and pineapple.

1. Somebody brought a topping which starts with the same letter as his or her name.
2. Kari is a vegetarian.
3. Juan offered to help the boy who brought mushrooms cut them up.
4. Neither of the girls likes olives.

	bacon	mushrooms	pepperoni	olives	pineapple
Maria					
Juan					
Stephen					
Kari					
Paul					

Use the grid, if you would like, to eliminate possibilities. Put an "x" in a box if you know a topping doesn't go with a name. Put an "o" if you know it does.

Solution to Pizza Puzzle Logic

Maria brought bacon.

Juan brought olives.

Stephen brought mushrooms.

Kari brought pineapple.

Paul brought pepperoni.
