

Robot Riddle

Katie, Ross, Stephen, and Teresa each invented a different kind of robot to help them do their work. Use the clues to match the kids with what the robots help with: homework, lawn mowing, leaf raking, and picking up toys

1. Stephen and Ross's robots usually work inside.
2. Katie said her robot was most useful in the summertime.
3. Ross asked if he could borrow the homework robot this week.

	Homework	Mowing	Raking	Picking up
Katie				
Ross				
Stephen				
Teresa				

Use the grid, if you'd like, to eliminate possibilities. Put an "x" in a box if you know a robot doesn't go with a person. Put an "o" if you know it does.

SOLUTION

Katie has the mowing robot.
Ross has the picking-up robot.
Stephen has the homework robot.
Teresa has the raking robot.
